-----	------------------------------------	-----

FilterCube

LOTS OF AIR IN A SMALL SPACE

You save:

- ✓ **Space** in your hall, as the installation area is smaller than a Euro pallet
- ✓ **Money**, as several workplaces are supplied with clean air at the same time
- ✓ **Energy**, thanks to the efficient fan and intelligent air routing
- ✓ **Time**, due to short filter change intervals

THE CLEANEST PLACE IN THE WORLD: **YOUR WORKPLACE**

Variable use

The crane eyes allow the filter system to be easily brought into position

Energy-efficient motor

Optimum suction power with low power consumption and low noise levels

The right filter technology for every application

High-tech filters ensure extremely long operating times

Intelligent filter control

Intuitive control panel with self-explanatory control

OUR PRINCIPLES FOR AN EXTRACTION SYSTEM

**Solutionorientated:**

We don't see the problem, we find the solution.

**Customer focus:**

Together we develop suitable solutions, customised specifically for you.

**Reliable products:**

Performance and functionality take centre stage.

**Sustainability:**

Environmentally friendly production is important to us.

**Qualified advice on site:**

Our dealer network offers competent support.

**Strong partners:**

Benefit from the expertise of our partners in various areas.

**Complete service:**

We accompany you from consultation to maintenance.

**Almost 30 years of experience:**

We are the world market leader in filter and extraction technology.

**Versatile in use:**

Our products are suitable for all applications and industries.

**Legal compliance:**

We help you to comply with legal requirements.

**Employee health:**

Our solutions reduce the risk of dangerous long-term illnesses.

**Employer attractiveness:**

Clean workplaces are a basic requirement for basic equipment for skilled workers.

**Employee motivation:**

Healthy employees are more motivated.

**Cost reduction:**

Clean environments protect machines and reduce maintenance costs

MAKE YOUR WORKPLACE **THE CLEANEST PLACE IN THE WORLD**

For almost 30 years, we have been ensuring healthy air wherever smoke and dust arise in the workplace. Whether in industry, laboratories or offices - there is always a solution for clean air. We develop a suitable concept together with our customers, because we are the special machine builders, the occupational safety professionals or simply #dieLuftreiniger.
